### **Rep. Eddy Statement on the Blagojevich Sentencing**

“Today, justice was done for the people of Illinois. Not only did former Governor Blagojevich blatantly abuse his public office for personal gain, he was openly disdainful of the very people he was elected to serve. Fourteen years in prison is a fitting sentence, and I applaud Judge James Zagel for his handling of the trials and the sentencing hearing. Now, we need to put this sad chapter in our history behind us and continue working to repair the damage former Governor Blagojevich did to our state and to our national reputation,” said State Representative Roger Eddy (R-Hutsonville) who served on the House Special Investigative Committee that recommended the former governor’s impeachment.
